

## Agreement and Release

As parents we understand that the Cecchetti Council of America and Hope College cannot be responsible for any injuries or damages suffered by our child during his/her participation in the summer program. We therefore consent to our child's participation in the summer program and we further consent to our child's participation in field trips and any other activity taken in connection with the summer program. We further agree to assume full responsibility for any injuries or damages that occur to our child during the summer program. In consideration of Cecchetti Council of America's acceptance of our child in the program and Hope College's granting permission for our child to reside on the Hope College Campus, we do hereby agree that neither our child nor we, individually, or as parents or guardians of our child, will institute any legal action or assert any claim against Cecchetti Council of America or Hope College for any injury or damage experienced by our child during the summer program. This covenant and agreement shall cover personal injuries or any injury to real or personal property, which might occur during the summer program or any of its related field trips or activities.

Furthermore, we do hereby waive, release and forever discharge Cecchetti Council of America and Hope College, its agents, employees, and directors from any and all claims or causes of action of any kind whatsoever which we might have as a result of our child's participation in the summer program; and we further agree to indemnify Cecchetti Council of America and Hope College against any claims for damages or otherwise that might be asserted by our child or his heirs, executors or administrators.

In an emergency situation when parental permission is not available, we also hereby grant and give our permission for the Cecchetti Council of America to seek emergency medical help for our child.
